11			后唇 Rear lip	DBX	DCF
12			尾翼 Rear	DBX	DCF

Source aftermarket carbon fiber parts for the Aston Martin DBX through our catalog for luxury SUV tuning specialists, distributors, automotive parts retailers and aftermarket brands. Established in China in 2006, our factory brings together manufacturing experience and first-hand retail insight through our own direct-to-consumer brand. With more than 1,500 molds across our overall product range, we provide an established production background for wholesale sourcing and custom development discussions. Our retail experience also helps us understand the product information and finish expectations that trade partners must communicate to their customers.

For Aston Martin DBX wholesale pricing, specify the exact vehicle version, model year, selected catalog items, quantities and delivery country. Provide photos of relevant installation areas if the vehicle has existing modifications, and verify fitment for each component rather than assuming compatibility across all DBX versions. For OEM carbon fiber production or private label projects, submit drawings, reference photos or sample details, material specifications, finish requirements, dimensional criteria, branding needs and estimated quantities. Contact us to discuss manufacturing feasibility, tooling, minimum order quantities and production lead times.
