6			后视镜壳（替换） Rearview mirror housing (replacement)	2021+ A3 S3	CF+ABS

Source aftermarket carbon fiber parts for the Audi A3 and S3 through our catalog for tuning shops, automotive parts distributors, retailers and aftermarket brands. Established in 2006, our China-based factory combines manufacturing experience with insights from operating our own direct-to-consumer brand. Our tooling library includes more than 1,500 molds across our overall product range. This connection between production and retail helps us understand the need for clear model, body-style and trim information when trade customers select products for an Audi A3 or S3 carbon fiber range.

For Audi A3 and S3 wholesale pricing, provide the exact model, generation, year, body style, bumper specification, selected item numbers, quantities and delivery country. Check each product's listed application rather than assuming compatibility between A3 and S3 versions. For OEM manufacturing, custom carbon fiber components or private label projects, share drawings, reference photos or sample details, material and finish specifications, dimensional requirements, branding needs and estimated order volume. Contact us to discuss manufacturing feasibility, tooling, inspection criteria, minimum order quantities and production lead times.
