6				尾翼 Rear spoiler	20-23 A6 Allroad	DCF

Explore our aftermarket carbon fiber parts catalog covering the Audi A6 and A6 Allroad, prepared for tuning shops, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our factory in China combines carbon fiber manufacturing experience with practical insights from operating our own direct-to-consumer brand. Our tooling library spans more than 1,500 molds across our overall product range. We understand that trade customers need accurate body-configuration and application information when sourcing products for different A6 variants. This catalog should be used for item-by-item selection rather than as a claim of shared fitment across A6 and A6 Allroad models.

For Audi A6 and A6 Allroad wholesale enquiries, specify the exact model, generation, year, body style and exterior configuration, together with the selected catalog items, quantities and delivery country. Include reference photos if bumper, trim or cladding details require clarification. For custom carbon fiber parts, OEM production or private label projects, provide drawings or sample details, material and finish specifications, dimensional requirements, branding needs and estimated order quantities. Contact us to discuss manufacturing feasibility, tooling, inspection criteria, minimum order quantities and production lead times.
