14			侧裙 Side skirt 2	21-24 RS3/8Y	DCF
15			尾翼 Rear	21-24 RS3/8Y	DCF

Review our aftermarket carbon fiber parts catalog for the Audi RS3, prepared for performance tuning shops, distributors, automotive parts retailers and aftermarket brands. Established in China in 2006, our factory brings together carbon fiber manufacturing experience and first-hand retail knowledge through our own direct-to-consumer brand. With more than 1,500 molds across our overall product range, we provide an established manufacturing background for wholesale sourcing and custom development discussions. Our retail experience also informs how we communicate application details and product specifications to businesses serving Audi RS3 customers.

For Audi RS3 wholesale enquiries, send the vehicle generation, model year, body style, selected catalog item numbers, quantities and delivery country. Specify whether the vehicle is an original RS3 or another model undergoing an RS3-style conversion, as these applications require separate review. For OEM production or private label carbon fiber parts, provide drawings or sample details, material and finish requirements, dimensional specifications, branding needs and estimated quantities. Contact us to discuss development feasibility, tooling, inspection criteria, minimum order quantities and lead times.
