8			雾灯框 Fog light bezel	14-18 RS7	DCF
9			后视镜壳 Rear-view mirror housing	14-18 RS7	DCF

Review our aftermarket carbon fiber parts catalog for the Audi RS7, developed for performance tuning businesses, distributors, automotive parts retailers and aftermarket brands. Established in China in 2006, our factory combines production experience with practical customer insight from operating our own direct-to-consumer brand. Our tooling library spans more than 1,500 molds across our overall product range. Working across manufacturing and retail helps us understand the importance of accurate application details and clearly defined finishes when trade partners select carbon fiber components for individual RS7 builds or their own product offering.

For Audi RS7 wholesale quotations, send the selected catalog item numbers, vehicle generation, model year, exact version, quantities and delivery country. When sourcing several components for one project, list each item and its preferred finish so the requirements can be reviewed together. For custom carbon fiber parts, OEM manufacturing or private label enquiries, provide drawings, reference photos or sample details, material specifications, dimensional requirements, branding needs and estimated quantities. Contact us to discuss manufacturing feasibility, tooling, inspection criteria and production terms.
