15			油箱盖 Fuel tank cap	F87	DCF

Explore our aftermarket carbon fiber parts catalog for the BMW M2 F87, prepared for performance tuning specialists, distributors, automotive parts retailers and aftermarket brands. Established in 2006, our factory in China combines carbon fiber manufacturing experience with market knowledge from operating our own direct-to-consumer brand. We maintain more than 1,500 molds across our overall product range. Our experience across manufacturing and retail helps us understand why precise vehicle-version information and clearly defined finishes matter to businesses sourcing carbon fiber upgrades for F87 customer builds.

For BMW M2 F87 wholesale enquiries, provide the exact variant, model year, selected item numbers, quantities and delivery country. Identify the existing bumper and exterior configuration, and confirm each product's application rather than assuming compatibility across all F87 versions. For OEM manufacturing, custom carbon fiber components or private label projects, share drawings or sample details, material and finish specifications, dimensional requirements, branding needs and expected order quantities. Contact us to review feasibility, tooling requirements, inspection criteria, minimum order quantities and lead times.
