Explore our aftermarket carbon fiber parts catalog for the BMW M5 F90, prepared for performance tuning specialists, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our China-based factory combines manufacturing experience with market insights from operating our own direct-to-consumer brand. Our tooling library includes more than 1,500 molds across our overall product range. This manufacturing and retail background helps us understand the clearly specified finishes and application details that trade partners need when selecting individual components or coordinating several products for an F90 customer build.

For BMW M5 F90 wholesale quotations, provide the exact variant, vehicle year, selected catalog items, quantities and delivery country. Identify the pre-facelift or facelift configuration and any existing aftermarket modifications. For OEM production, custom carbon fiber components or private label enquiries, share drawings or sample details, target application, material and finish requirements, dimensional specifications, branding needs and estimated order volume. Contact us to review development feasibility, tooling, inspection criteria, minimum order quantities and lead times.
