26			前桥马鞍 Front Axle Saddle	296	DCF

Explore our aftermarket carbon fiber parts catalog for the Ferrari 296, prepared for tuning shops, distributors, automotive parts retailers and aftermarket brands. Established in 2006, our factory in China combines carbon fiber manufacturing experience with direct market insight from operating our own consumer brand. Our tooling library includes more than 1,500 molds across our overall product range. This manufacturing and retail background helps us understand the importance of clear product specifications, consistent presentation and practical support for trade customers sourcing Ferrari carbon fiber parts.

For Ferrari 296 wholesale pricing, send the selected catalog item numbers, exact vehicle variant, model year, quantities and delivery country. Check the application listed for each component and identify any existing modifications that may affect fitment. For custom carbon fiber parts, OEM manufacturing or private label projects, provide drawings, reference photos or sample details, material and finish requirements, branding needs and estimated quantities. Contact us to discuss development feasibility, tooling, inspection criteria, minimum order quantities and lead times.
