25			发动机舱 (敞篷) Engine Compartment Covers	F8	DCF
26			档位+通道 Gear + Channel	F8	DCF
27			门槛 threshold	F8	DCF

Find aftermarket carbon fiber parts for the Ferrari F8 in our catalog for tuning shops, distributors, automotive parts retailers and aftermarket brands. Established in 2006, our China-based factory combines manufacturing experience with practical knowledge from operating our own consumer brand. Our tooling library contains more than 1,500 molds across our overall product range. Working with both production and retail requirements helps us understand why trade buyers value clear specifications, coordinated product presentation and accurate information when selecting components for customer projects.

For Ferrari F8 wholesale enquiries, send the catalog item numbers, exact vehicle variant, model year, quantities and delivery country. If sourcing several components for one project, list each item and the desired finish so the requirements can be reviewed together. For custom carbon fiber manufacturing, OEM production or private label supply, provide drawings or sample details, material requirements, dimensional specifications, branding needs and expected order volume. Contact us to discuss feasibility, tooling, inspection criteria, minimum order quantities and lead times.
