6			发动机舱 Engine Bay Covers	Purosangue	DCF
7			OEM前盖饰件 OEM Cover Front Lid	Purosangue	DCF

Source aftermarket carbon fiber parts for the Ferrari Purosangue through our product catalog for tuning businesses, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our factory in China brings together manufacturing experience and first-hand retail knowledge through our own direct-to-consumer brand. With more than 1,500 molds across our overall product range, we provide a manufacturing base for catalog-product sourcing and discussions on custom development. Our retail experience also informs how we approach product information, finish expectations and the questions customers ask before purchasing.

For Ferrari Purosangue wholesale enquiries, provide the catalog item numbers, model year, quantities, preferred finish and delivery country. Include photos of the vehicle and relevant installation areas if it has existing modifications. For OEM carbon fiber manufacturing or a private label product range, share drawings or sample details, target fitment, material specifications, dimensional requirements, branding needs and estimated order volume. Contact us to review feasibility, tooling requirements, quality inspection criteria and production terms.
