We manufacture aftermarket carbon fiber parts in China for tuning shops, distributors, automotive parts retailers and aftermarket brands.

This catalog covers exterior parts for the McLaren 540C and 570S, selected 600LT-style conversion components, and interior trim for the models listed against each item. Products include front lips, side skirts, hoods, mirror covers, rear wings, front fenders and interior trim panels. Fitment varies by product; conversion components are not necessarily replacement parts for an original 600LT.

#### Wholesale Enquiries

Send the catalog item numbers, vehicle model and year, quantities, and delivery country to request pricing and fitment confirmation.

#### OEM & Private Label Enquiries

For custom carbon fiber parts or private label projects, send your drawings, reference photos or sample details, target vehicle, material and finish requirements, branding needs, and estimated order quantities. Contact us to discuss manufacturing feasibility, tooling requirements, minimum order quantities and lead times.
