13			门踏板 Door Sill	MP4-12C 625C 650S 675LT	DCF

Review our aftermarket carbon fiber parts catalog covering the McLaren MP4-12C, 625C, 650S and 675LT. We manufacture in China for tuning shops, distributors, automotive parts retailers and aftermarket brands. Use the application listed against each item when selecting products; inclusion in this catalog does not mean a part fits all four models. For wholesale quotations, provide the exact model, vehicle year and body style, catalog item numbers, quantities and delivery country. If your project involves a styling conversion, identify both the original vehicle and the intended appearance. For OEM or private label enquiries, submit drawings or sample details, material and finish specifications, branding requirements and expected quantities to discuss feasibility, tooling and production terms.
