21			后唇 Rear lip	W118	DCF
22			机盖 Hood	W118	DCF

Review our aftermarket carbon fiber parts catalog for Mercedes-Benz CLA applications currently labeled W117 and W118. Established in 2006, our factory in China combines carbon fiber manufacturing experience with market insight from operating our own direct-to-consumer brand. Our tooling library includes more than 1,500 molds across our overall product range. We serve tuning shops, distributors, automotive parts retailers and aftermarket brands, with an understanding of the accurate generation and body-style information needed when selecting products across different CLA applications.

For Mercedes-Benz CLA wholesale enquiries, provide the confirmed chassis designation, exact model, year, body style, bumper specification, selected item numbers, quantities and delivery country. Confirm whether the catalog labels correspond to C117 or C118 applications and include supporting vehicle photos. For OEM carbon fiber manufacturing, custom parts or private label projects, submit drawings or sample details, material and finish specifications, dimensional requirements, branding needs and estimated quantities. Contact us to discuss manufacturing feasibility, tooling, inspection criteria, minimum order quantities and lead times.
