Benz W218

1			R款尾翼 R Rear	W218	CF
2			AMG款尾翼 AMG Rear	W218	CF

Explore our aftermarket carbon fiber parts catalog for Mercedes-Benz CLS applications currently identified as W218. Founded in 2006, our factory in China combines manufacturing experience with customer knowledge gained from operating our own direct-to-consumer brand. We maintain a tooling library of more than 1,500 molds across our overall product range. This production and retail background helps us understand the product descriptions, finish requirements and application details that tuning shops, distributors, retailers and aftermarket brands need when sourcing carbon fiber components for CLS customization projects.

For Mercedes-Benz CLS wholesale quotations, confirm the chassis designation and provide the exact model, year, body style, bumper configuration, selected item numbers, quantities and delivery country. Clarify whether the W218 catalog label refers to a C218 application and include vehicle photos where needed. For OEM manufacturing, custom carbon fiber components or private label supply, submit drawings or sample details, material and finish requirements, dimensional specifications, branding needs and estimated order volume. Contact us to review feasibility, tooling, inspection criteria, minimum order quantities and production terms.
