13			后视镜壳(替换) Rearview mirror housing	W463	CF+ABS
14			门拉手 Door handle	W463	DCF

Explore our aftermarket carbon fiber parts catalog for the Mercedes-Benz G-Class W463, developed for G-Class customization shops, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our factory in China combines carbon fiber manufacturing experience with direct market knowledge through our own consumer brand. We maintain a tooling library of more than 1,500 molds across our overall product range. Our production and retail experience helps us understand the importance of documenting the exact vehicle configuration when businesses source carbon fiber components for G-Class projects.

For Mercedes-Benz G-Class W463 wholesale enquiries, provide the vehicle model, production year, body configuration, selected item numbers, quantities and delivery country. Include photos of relevant installation areas and identify existing body conversions; the W463 designation alone should not be treated as confirmation of fitment. For OEM manufacturing, custom parts or private label supply, submit drawings or sample details, material and finish specifications, dimensional requirements, branding needs and estimated order volume. Contact us to discuss feasibility, tooling, inspection criteria, minimum order quantities and production terms.
