17			排气嘴 Exhaust nozzle	G350 G500 G63	DCF
18			雷神版踏板 Side Step	G50 G63	DCF

Source aftermarket carbon fiber parts for the Mercedes-Benz G350, G500 and G63 through our catalog for luxury SUV tuning specialists, distributors, automotive parts retailers and aftermarket brands. Established in China in 2006, our factory combines manufacturing experience with market insights from operating our own direct-to-consumer brand. Our tooling library spans more than 1,500 molds across our overall product range. This combined catalog supports model-specific sourcing; it does not imply that components are interchangeable across every G350, G500 and G63 configuration.

For wholesale enquiries, identify the exact G-Class model, generation, production year, selected catalog items, quantities and delivery country. Specify whether the vehicle retains its original configuration or has undergone a G63-style or other body conversion, and include supporting photos.

For OEM carbon fiber production, custom components or private label projects, provide drawings or sample details, target application, material and finish specifications, dimensional requirements, branding needs and estimated quantities. Contact us to discuss manufacturing feasibility, tooling, inspection criteria and production lead times.
