8			内饰 trim	W213 W238	DCF+ABS

Source aftermarket carbon fiber parts for the Mercedes-AMG CLA45 and CLA45 S through our catalog for performance tuning businesses, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our China-based factory brings together manufacturing experience and market knowledge gained through our own direct-to-consumer brand. We maintain more than 1,500 molds across our overall product range. Our experience serving both trade and retail requirements helps us understand the product identification and application details needed when businesses select carbon fiber components for different CLA45 versions.

For Mercedes-AMG W212&W213&W238 wholesale pricing, identify the exact model, generation, year and body style, together with the selected item numbers, quantities and delivery country. Include reference photos where bumper configuration or existing modifications require clarification. For OEM production, custom carbon fiber components or private label supply, share drawings or sample details, target fitment, material and finish requirements, dimensional specifications, branding needs and estimated order volume. Contact us to discuss development feasibility, tooling, inspection criteria and production lead times.
