18			后视镜壳(替换) Rearview mirror housing	718	DCF
19			侧裙 Side Skirts	718	DCF
20			后包角 Rear Side Splitter	718	DCF

Source aftermarket carbon fiber parts for the Porsche 718 through our catalog for tuning shops, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our factory in China brings together manufacturing experience and first-hand retail knowledge through our own direct-to-consumer brand. With more than 1,500 molds across our overall product range, we provide an established manufacturing background for wholesale sourcing and custom development enquiries. For businesses serving Porsche 718 customers, clear model and body-style information is essential when selecting carbon fiber components for individual builds or a retail product range. For Porsche 718 wholesale pricing, specify the exact model and variant, vehicle year, body style, catalog item numbers, quantities and delivery country. Identify any existing modifications and check each product's application rather than assuming compatibility across all 718 versions. For OEM production or private label carbon fiber parts, provide drawings or sample details, target fitment, material and finish specifications, dimensional requirements, branding needs and estimated order volume. Contact us to review development feasibility, tooling, inspection criteria, minimum order quantities and production lead times.
