9			尾段排气 Tail exhaust	GT4 RS	stainless steel

10			尾段排气 Tail exhaust	GT4 RS	titanium alloy

Explore our aftermarket carbon fiber parts catalog for the Porsche 718 Cayman GT4 RS, prepared for Porsche tuning specialists, distributors, automotive parts retailers and aftermarket brands. Established in 2006, our factory in China combines carbon fiber manufacturing experience with market insights from operating our own direct-to-consumer brand. Our tooling library includes more than 1,500 molds across our overall product range. This manufacturing and retail background helps us understand the product specifications, finish expectations and application details that trade customers need when sourcing components for GT4 RS projects.

For Porsche GT4 RS wholesale enquiries, provide the selected catalog item numbers, vehicle year, quantities and delivery country. Specify whether the application is an original GT4 RS or another 718 undergoing a styling conversion, and confirm each component’s fitment. For OEM carbon fiber manufacturing, custom parts or private label projects, submit drawings, reference photos or sample details, material and finish requirements, dimensional specifications, branding needs and estimated quantities. Contact us to discuss manufacturing feasibility, tooling, inspection criteria, minimum order quantities and lead times.
