69			后视镜壳(替换) Rearview mirror housing	911	DCF
70			后视镜壳(替换) Rearview mirror housing	992	DCF
71			后视镜壳 (右驾) Rearview mirror housing	992	DCF
72			后视镜壳 Rearview mirror housing	992	DCF

Explore our aftermarket carbon fiber parts catalog for the Porsche 911 992, developed for specialist tuning businesses, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our factory in China combines production experience with practical retail knowledge through our own direct-to-consumer brand. We maintain a tooling library of more than 1,500 molds across our overall product range. This connection between manufacturing and retail helps us understand the product identification, finish expectations and application details that trade customers need when sourcing carbon fiber components for 992 customization projects.

For Porsche 911 992 wholesale enquiries, provide the exact model variant, year, body style, catalog item numbers, quantities and delivery country. Identify the existing exterior specification and check each product's application rather than treating the 992 designation as universal fitment. For OEM carbon fiber manufacturing, custom components or private label enquiries, share drawings or sample details, material and finish specifications, dimensional requirements, branding needs and estimated order volume. Contact us to discuss manufacturing feasibility, tooling, inspection criteria, minimum order quantities and production terms.
