17			PK款尾翼 PK Rear	9YA	DCF
18			PK款前风口 PK Front Canards	9YA	DCF
19			PK款叶子板饰件 PK Fender Trims	9YA	DCF

Source aftermarket carbon fiber parts for Porsche Cayenne 9YA applications through our catalog for luxury SUV tuning specialists, distributors, automotive parts retailers and aftermarket brands. Founded in 2006, our China-based factory brings together manufacturing experience and first-hand customer knowledge through our own direct-to-consumer brand. Our tooling library includes more than 1,500 molds across our overall product range. This production and retail background helps us understand the application information that trade buyers need when selecting carbon fiber components for Cayenne projects with different exterior configurations.

For Porsche Cayenne 9YA wholesale pricing, provide the exact vehicle variant, production year, body configuration, bumper specification, selected item numbers, quantities and delivery country. Confirm the listed application of each part rather than assuming compatibility with other Cayenne versions. For OEM production, custom components or private label supply, share drawings or sample details, material and finish specifications, dimensional requirements, branding needs and estimated order volume. Contact us to discuss manufacturing feasibility, tooling, inspection criteria, minimum order quantities and production lead times.
