7			PK款尾翼 PK Rear	Taycan	DCF
8			尾翼 Rear	taycan	DCF

Explore our aftermarket carbon fiber parts catalog for the Porsche Taycan, prepared for Porsche customization shops, distributors, automotive parts retailers and aftermarket brands. Established in 2006, our factory in China combines carbon fiber manufacturing experience with market knowledge from operating our own direct-to-consumer brand. We maintain more than 1,500 molds across our overall product range. Our experience across manufacturing and retail helps us understand why precise vehicle-version information, product presentation and finish specifications matter to businesses sourcing carbon fiber components for Taycan customers.

For Porsche Taycan wholesale enquiries, send the exact variant, model year, body configuration, selected catalog items, quantities and delivery country. Identify any facelift specification or existing modifications and verify each component's application. For OEM carbon fiber manufacturing, custom development or private label projects, provide drawings, reference photos or sample details, target fitment, material and finish requirements, dimensional specifications, branding needs and estimated quantities. Contact us to review feasibility, tooling requirements, inspection criteria, minimum order quantities and lead times.
